

# ***Stay Connected! A Parent's Guide to Instructional Technology in District 214 - A FREE Online Course for Parents***

Interested in learning more about your student's classroom and experiences with technology?

*Enroll in this online course and learn how to stay connected!*

The course is designed to support parents in the District 214 community by providing tools and resources to enhance their understanding about technology use and applications.

***For the 2016 Spring semester, we added a section specifically  
for parents of 8th grade students!***

This **FREE** online course is designed as a six week course using the Learning Management System *Schoology* and will begin on *Monday, February 15th*. Participants will work at your own pace through the course materials and can take as much time as you need. There are no face-to-face meetings for this course. All activities will be completed online and participants will receive feedback and guidance from the instructors.

Course topics include:

- Today's Classroom
- Digital Balance
- Social Media
- Digital Citizenship
- Strategies for managing technology at home
