

Three-Dimensional Art Career Pathway

Intro to 3D Art (#131) & 3D Art One (#133)

Intro to 3D Art gives students a full experience with a wide range of media and processes. Ceramics, metalwork, sculpture and jewelry are all explored in this hands-on class. Various materials and techniques will be highlighted in the Intro to 3D Art course and then take your work to the next level in 3-D Art One and make it a year long. This course satisfies the District 214 Fine Arts Requirement.

Possible Careers:

Engineering	Educator
Prosthetics	Architect
CAD Sculptor	Set Designer
Toy Designer	Digital Modeler
Automotive Designer	Sculptor
Make-up Artist	Industrial Design
