

**Doug Frye**  
**Class of 1978**  
**President & CEO of Colliers International**

Doug Frye is Global President and CEO of Colliers International, a worldwide leader in commercial real estate services, with over 13,000 professionals operating in 62 countries. Mr. Frye joined Colliers in 2001, and under his leadership the enterprise has grown to over \$2 billion in revenue in 2012.

Because he is passionate about business as a force for positive change in society, Mr. Frye is active with the World Economic Forum (WEF) to debate and model programs that allow companies to impact positively both the lives of their employees, and the local and global communities. Mr. Frye serves on the WEF Steering Board for Infrastructure and Urban Development Industries, and in 2011 he co-chaired the Annual Meeting of the New Champions in Dalian, China. In collaboration with a team of global CEOs, Mr. Frye drafted the World Economic Forum's Partnering Against Corruption Initiative (PACI)—an important global policy that addresses corruption in many countries around the world. Doug was selected as one of the top 100 international CEOs to attend the invitation-only annual Microsoft CEO summit.

Mr. Frye has made Colliers International a leading example of corporate social responsibility through its global humanitarian and philanthropic efforts. He helped establish the Colliers Foundation to provide relief for victims of natural disasters. In 2012, Mr. Frye founded Everyone Gives, the world's most inclusive social giving campaign, which in 10 days raised over \$750,000 for more than 1,000 charities in over 60 countries. In addition, Colliers was a founding partner of the World Green Building Council.

In his personal life, Mr. Frye is a non-profit impact investor with leading microfinance partners Global Partnerships and Agros International in Latin America. He is active in Youth With a Mission's "Homes of Hope" project in Mexico, has journeyed to Mali, West Africa, to build schools, dig freshwater wells and build AIDS centers, and has funded a medical supply boat to bring direct care to remote areas of Brazil's Amazon Basin.

He's an avid sailor, cyclist (completing the 200-mile Seattle to Portland race in 2012) and musician, as well as an accomplished golfer, recently competing in the 2013 AT&T Pro-Am Tournament at Pebble Beach, California.
