

# Photography Career Pathway

## Photography 1 (#122) & Photography 2 (#123)

Do you love to take photos with your phone and post them to Instagram? If you do, then Photo One is for you. Photo One teaches you the basics to black and white film photography, darkroom printing, and digital editing your images using Adobe Photoshop. Take your images to the next level in Photo 2 and make your high school photography experience last all year long. A great way to start and leads you to our AP level courses. This course satisfies the District 214 Fine Arts Requirement.

---
